Bad Stomach

Yes, its true: thousands of people cannot eat the simplest meal without having it lie on the stomach like a lump of lead, causing misery, sour stomach and gas eructations.

And later, when the stomach has gone from bad to worse, there will be longer periods of food fermentation, and then dizziness, billousness, sick headaches and nervousness.

If your stomach is out of order, if it doesn't feel right after meals, go today and get a 59-cent box of Mi-o-na stomach tablets. In a few minutes after the first dose, the misery will disappear, and you will be thankful. Then go right on taking Mi-ona for a few days. It will build up the stomach unclos the liver, purify the bowels and make you entirely satisfied with your stomach in a few days.
